

OUR QUALITY POLICY

We have devoted ourselves to provide first-class Certification, Greenhouse Gas Verification and Inspection Services to our customers with our professional staff that are experts in their fields and our services.

Our objective is to provide our services in an impartial, independent and fair manner in accordance with our contracts that we have signed with our customers and Accreditation requirements.

We have designed a management system based on impartiality and objectivity; identified conflicts of interest and possible risks in order to achieve this goal as well as we regularly improve and implement this management system. Moreover, we set measurable targets to achieve this objective and examine whether these targets have been achieved or not through our regular management revisions. We have ensured that our company documentation has been accepted, comprehended and implemented at all levels of the company.

We constantly observe the efficacy of our system through regular internal audits and revisions.

Internal and external activities of our company are constantly monitored and the feedbacks of our customers are assessed in order to ensure the service quality at the standards that we have specified. We improve our services in order to add more surplus value into our customers thanks to these activities.

All QSI employees are liable at following this policy and company procedures.
